Charter Commission
4444 Rice Street
Lihue Hawaii 96766

To whom it may concern,

I would like to take this opportunity to provide my support in recommending the establishment of a Fire Commission for the County of Kauai.

With our rapidly growing residential and visitor populations on Kauai it is becoming more and more important to have broad and long term support of our Fire and Ocean Safety Department, far beyond that of the limited terms of elected political offices and appointments. A commission would assist the department in their long range goals in training and equipment needs.

Should you have any questions or concerns please feel free to contact me at your convenience.

Sincerely,

Chris Faye
